

The Stilwell Partnership

Due to a growing portfolio of challenging projects we are seeking highly motivated professionals to join us. There are currently opportunities for:

Highway, Traffic, Transportation and Drainage Engineers and/ or Technicians

With a minimum of 2 years' experience in highway design, autocad, site supervision and preparation of transportation assessments. Ideally you will also have an understanding of planning transportation process.

Graduate Transport or Civil Engineers

With a minimum of 1 year's experience in any appropriate transportation field.

Applicants should be fully computer literate and use software such as AutoCAD, Arcady, Picady, Linsig, Office, etc. They should have an appropriate degree and be aiming for Chartered status.

Applicants for both posts should hold a full driving licence.

Successful applicants may find themselves surveying, designing, talking to members of the public, being in charge of projects, helping at exhibitions, us, visiting sites,
